LUNCH (11.00 – 15.00)

WHAT ARE MONTADITOS?

A montadito is a small sandwich weighing about 50 grams (a normal lunch sandwich weighs 100 grams). You can choose between a white or brown sandwich with different toppings, both cold and warm. Because we offer smaller sandwiches, you don't have to choose a specific sandwich, but can enjoy multiple flavors during lunch. This idea of lunch is also very much in line with our idea of tapas food, and of course that's what we're known for.

To clarify:

Small hunger:	1 Montadido
Normal lunch:	2 Montaditos
Tasty appetite:	3 Montaditos

We also have a large selection of generously filled sandwiches on sourdough bread or a fine selection from our tapas menu.
